CUSTOMER SERVICE ADVICE FROM TELSTRA

Delay due to severe weather events in parts of the Southeast Coast, and Wide Bay and Burnett Districts of Queensland.

Parts of the Southeast Coast and Wide Bay and Burnett Districts of Queensland were impacted by severe weather on or about Sunday 11 February 2018 and Tuesday 13 February 2018.

An interruption to Telstra's normal operations has occurred leading to delays in installation and repair activities. As many as 700 Telstra services are impacted in the area bounded by and including, but not limited to, the area starting at Tin Can Bay following the coastline south past Noosa Heads and Caloundra to Pelican Waters. From Pelican Waters the area heads northwest to Landsborough, west to Boorobin then northwest to Manumbar. The area turns northeast to Gundiah then turns southeast back to Tin Can Bay. All suburbs and towns, off shore islands and coastal areas serviced by Telstra within these boundaries are encompassed in this exemption.

What else do you need to know?

Information as to the nature of these severe weather events can be sourced from the Bureau of Meteorology (BOM). Damaging winds and large hailstones are referred to in the BOM Severe Weather Warning issued for 11 February 2018 initially at 5:33 pm Sunday, 11 February 2018, reference number IDQ21033; all of which were widely reported in the news media after the events.

Due to this event, we're claiming an exemption under section 21 of the Telecommunications (Customer Service Guarantee) Standard 2011, including an exemption from the payment of compensation between 12 February 2018 to 4 March 2018 inclusive for any delays in fixing or connecting services, and the keeping of appointments relating to these activities in the impacted area.

CUSTOMER SERVICE ADVICE FROM FOXTEL

Extreme Weather events impact service in Brisbane and surrounding Southeast Coast District of Queensland.

Foxtel's telecommunications services were significantly impacted by a series of extreme weather events in the above regions, on Sunday 11 February 2018 through to Tuesday 13 February 2018, which has resulted in delays to installation and repair activities. The nature of these weather events can be sourced from the Bureau of Meteorology.

Foxtel refers to the mass service disruption notice published by Telstra in the Brisbane Courier Mail on Thursday 15 February 2018, and advises that Foxtel telecommunications customers located in the areas identified in that notice may be affected by these extreme weather events. Foxtel has identified that the effects of these weather events may impact approximately 5591 services. This number may increase as Foxtel assesses the full extent of the extreme weather conditions.

Given these circumstances were outside of Foxtel's control, Foxtel is claiming an exemption from compliance with the timeframes and performance standards required by section 21 of the Telecommunications (Customer Service Guarantee) Standard 2011 (CSG Standard), and notifies customers that normal timeframes for installation and repair activities may not be met during the period 12 February 2018 to 4 March 2018. However, this timeframe is indicative only and Foxtel customers should anticipate that some further delays may occur.

For further details about these disruptions, or to obtain a copy of this notice, please visit www.foxtel.com.au/msd or contact us on 131 999 quoting Exemption Reference Number 20180212-QLD-E-C-P-BRISBANE AND SURROUNDING DISTRICT - FOXTEL. If after contacting Foxtel you remain dissatisfied with our response to your query or you are unsure if these extreme weather events provide a proper basis for claiming an exemption to the CSG Standard, you may wish to raise the matter with the Telecommunications Industry Ombudsman by visiting www.tio.com.au.
