GENERAL NOTES
- Ensure that work is in accordance with Brisbane City Council Environmental Best Practice Notes.
- Site setout to be verified by Superintendent or Landscape Architect prior to commencement of construction works.
- Verify location of all services and easements prior to commencement of works.
- Written dimensions take precedence over scaled distances.
- Verify all dimensions on site prior to construction.
- Structures have been designed on the assumption that the minimum allowable bearing capacity for soil is 100kPa and terrain category = 2.5.
- In each case engineering certification and modification as necessary will be required for particular soil and site conditions.
- The copyright of this drawing remains the property of the Brisbane City Council.
- Dimensions in millimetres (mm).
