Adrian

Oxley is experiencing a major flood impact. Multiple streets and houses. Roads are cut and people trapped in their homes.

Is there any advice about Oxley Creek flood levels. Or any peak tomorrow? It's higher than 2013 now.

You will also need to think about clean up support. Please look at kerbside collection for Flooded homes in Oxley and all flood streets.

There's a big clean up coming

Other areas in suburbs are very bad and Rocklea is a major disaster.

Regards, Nicole Johnston.
